

## The Trogen Appeal for Peace in Georgia

We, the participants of the Peace Summer School in Trogen Switzerland from July 5<sup>th</sup> to 12<sup>th</sup> 2025, are engaged in building, developing and sustaining peaceful ways of living together. We are deeply concerned about what is presently happening in Georgia.

We are committed to support a process of peacebuilding in Georgia, as we believe that the people of this region have all possibilities of a life in peace and prosperity based on justice.

We decided to send this appeal for first steps in this direction to all parties involved:

- We appeal to the parties occupying the office of government to stop using force against the people and to initiate a dialoge with representatives of the opposition to resolve the conflict amicably
- We appeal to those who are struggling for free and fair elections to do everything they can to enter into a dialoge with those occupying the office of government as soon as possible in order to reduce the suffering of people
- We urgently appeal to individuals and communities across the world to take initiatives through their good offices to resolve the political conflict in Georgia in the interest of all.
